About Me

Computer science graduate who is passionate about developing websites and problem-solving. Seeking an internship to gain more experience and knowledge in the industry. Passionate about contributing to any company where I can grow while delivering meaningful results. Consistently trusted with leadership roles due to strong communication and problem-solving abilities. Experienced in building projects using C++, HTML, MySQL, PHP, and JavaScript.

Skills

- Programming (C++, JavaScript, PHP)
- Web Development & Databases (HTML, MySQL)
- Cloud & AI Tools (Google Cloud Run, Gemini API)
- Project Management & Leadership
- Agile Collaboration & Communication
- Technical Problem Solving

Education

- SIJIL PELAJARAN MALAYSIA (SPM)**
SMK Senawang 2020 - 2024
A librarian, a science stream student, and one of the Top 10 Best Students for SPM 2024.
SPM: 2A+ 4A 1A- 1B+ 1B
- DIPLOMA IN COMPUTER SCIENCE**
UNIVERSITY OF TECHNOLOGY MALAYSIA (UTM) 2025 - 2028
Academic Excellence: Received the Dean's List award for maintaining a high grade point average.
CGPA: 3.91
Core Coursework: Object-Oriented Programming (C++), Data Structures & Algorithms, Computer Organization & Assembly Language and Digital Logic.

Experience

- PERKHEMAHAN PERDANA PPIM PERINGKAT DAERAH**
Seremban 2023
Developed a disciplined mindset through active involvement in the camping program requiring punctuality, cooperation, and leadership.
- MAULIDUR RASUL PROGRAM**
SMK Senawang 2024
Led the school's Maulidur Rasul event as part of the uniformed unit, securing first place among all participating units through effective planning, coordination, and team leadership.
- VOLUNTEER PARTICIPANT - PSYCHIC FIELD TRIP**
Pantai Penyabong, Mersing April 2026
Collaborated effectively with a large group of student volunteers to systematically survey, collect, and segregate recyclable and non-recyclable materials across the beach zone.
- DEVELOPER & PARTICIPANT - PromptRush: AI-Powered Game Dev Sprint**
UTM, Skudai May 2026
Utilized prompt engineering and 'vibe coding' workflows with Gemini and Google AI Studio to rapidly prototype and code a live game within a 10-hour sprint. Successfully deployed a playable live demo on Google Cloud Run, gaining practical experience in cloud hosting and scalable infrastructure.
